

# DISCONTINUED PRODUCTS

## **RDCP 600 replaced by the SeaGuardII DCP**

The RDCP 600 is discontinued and will no longer be available for sale. After-sales support and service will continue.

## **SR10 sensors for RDCP, RCM9/11 and stand-alone discontinued**

The SR10 sensors that are intended for connection to older instruments like RCM9/RCM11 and RDCP 600 are being discontinued. You can still order those sensors until September 30<sup>th</sup>, 2015. We will continue to provide after-sales support and service.

### *The concerned sensors include:*

DCS 4100/4100R replaced by [In-line ZPulse DCS 5800/5810](#)

Oxygen Optode 3835/4130C replaced by [4835](#) and [4531](#)

Oxygen Optode 3830/3930C replaced by [4330](#) and [4831](#)

Conductivity sensor 4019/3919/4119 replaced by [4319](#)

Temperature sensor 4050 replaced by [4060](#)

Pressure sensor 4017 replaced by [4117/5217](#)

Turbidity sensor 3612/3712 replaced by [4112](#).

In addition, we would like to bring to your attention that the DO Optode foil kit 3853 contains only one foil instead of two as supplier prices have increased significantly.

We also would like to remind you that the Datalogger 3660 has been discontinued and replaced by SmartGuard.
