## THE FUTURE OF CRANE SAFETY SYSTEMS

### Configurable settings

Add features to your 15" color touch screen as you utilize the options prepared in the system software and activate:

- Hook Position, Rope Speed Indicator monitors A2B limits, Rope End and "AGOP/AOPS" sectors
- Slow and Boom Limits (OLM), alerts operator before hitting objects in "No-Go-Zones"
- Safe Reach Indicator, lets operator know how far to boom down with the actual weight carried by the hook before exceeding pre-warning and alarm limits - "plan ahead tool"
- Wind Speed and Wind Direction relative to the boom

### User friendly

- Easy to understand using intuitive graphics and symbols. Touch screen for simple, quick operation and acknowledgement
- High back lighting of 1000 cd/m<sup>2</sup> - giving a visible display even in sunlight, dimmable for night operation
- Resistive touch screen. May be used with gloves.
- On board help such as:
  - Operating and maintenance manual
  - Guidance and help procedures

### Extreme specification

- All parts including the operator's display, ingress IP 66
- System operating temperature
  - Cab equipment: -20 to 120°F (-30 to 50°C)
  - External, boom mounted equipment -40 to 140°F (-40 to 60°C)
- Certification to meet both Atex and IECEx (zone 2)

Compatible with the Mipeg 500, 1000 and 2000 load sensor family.
